

Case studies

Tutorial case studies

tutorial in learning and prediction

Mixture estimation - static mixtures

quasi-Bayes estimation - repeated runs
batch quasi-Bayes estimation - comparison with quasi-Bayes
estimation based on forgetting branching
comparison of estimation algorithms
benchmark with comparison of algorithms
EM algorithm

Mixture estimation - dynamic mixture

comparison of algorithms

Initialization of estimation

static mixture initialization - benchmarks
iterations in static mixture initialization
dynamic mixture initialization
benchmark - "banana" shape static mixture initializ
initialization from BMTB algorithms

Mixture simulation otions

Markov transition table, scaling
forms of simulator
use of Cth, different noise

Stopping rules

in estimation
in static mixture initialization (benchmark)
in static mixture initialization (details)

miscelaneous

factor estimation
